For the love of beautiful interiors

Design that will change your interior

For more than twenty years, we have been creating unique products that meet the highest standards both in terms of design and quality. We base our actions on professionalism, the use of modern technologies and knowledge of the latest trends in the field of space design. As a result we have created a designer collection of lappato tiles with extraordinary semi-matte finish and subtle colours, which allow to create sophisticated and original interiors, full of creative solutions.

Chic elegance

APENINO

Apenino collection is the quintessence of style, simplicity and elegance. Carefully chosen colours allow to create not only a minimalist, urban kitchen arrangement based on beautiful, almost white tiles, but also a charming salon in a shabby chic style, where grey plays with feminine pastel pink. Stoneware tiles will also complement a refined bathroom's walls and floors with tonal elements of rust, accompanied by white, matte ceramics and stylish wooden and golden accents. The visually appealing lappato finish, combined with the appropriate use of light, guarantees a unique effect of any interior.

Grace of classics

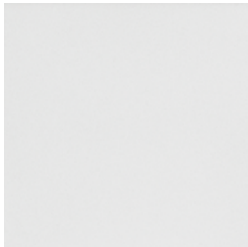

CAMBIA

Cambia collection is a universal and timeless design that perfectly fits in both classic monochromatic arrangements, as well as in variable – as befits its name - contrast combinations. Square black tiles bring peace and harmony to the interior, while the use of four available colours in the form of a bold plaid pattern, inspired by the world of fashion, emphasizes the dynamic and original character of any arrangement. Also noteworthy are beautiful mosaics, widely popular among investors, as they give lightness, charm and grace to bathroom and kitchen designs.

Discreet charm of minimalism

TASSERO

Tassero collection was created with minimal, sometimes even ascetic arrangements in mind, with the domination of simple forms, subtle colours and scarce accessories. A delicate pattern of worn concrete and tonal colouring of the elements, form a basis - literally and figuratively - for the harmonious use of space. Bright colours of the tiles perfectly fit into the concept of a illuminated Scandinavian interior, with wooden furniture and a linen sofa. The intriguing graphite grey will perfectly emphasize the industrial and, only apparently, cold nature of the arrangement.

Sophisticated simplicity

LUKKA

Lukka collection is a unique offer for those who dream of sophisticated interiors, decorated in a minimalist style. Perfectly reflecting the characteristics of a raw concrete surface, it will captivate all, both in a spacious, elegant living room, a small but beautifully lit kitchen and in a refined bathroom. Square tiles laid traditionally will give the interior a bit of a classic style, while rectangular elements, placed as modules, will be great in a dynamic and energetic design. On top of that, an intriguing colour palette - from broken white, through light grey and warm dust, to intense graphite grey, enables to successfully create not only monochromatic interiors, but also charming multi-coloured compositions.
