Usually I drown in the abstract. Sometimes I am a colorful bird, other times, I am a... grey sofa. And with that in mind I designed this collection. A toned down color palette, but with wings. It reflects me - a person who likes to create. The new collection of ceramic tiles Indy / Indo by My Way gives me such opportunities, as the interesting decorations and 25 x 75 cm format give the interior a unique character. It's a new dimension of interior design.

A NEW DIMENSION OF INTERIOR DESIGN

I always try to do as much research as possible because the time devoted to searching and experimenting with the materials brings about great results. It gives me an opportunity to compare, draw conclusions and select the best solutions. This is how my project, in which form is key, came to be. Just like in the Zonda / Zon by My Way collection. It is very inspiring – full of energy in both color and structure. The new tile size 25 x 75 cm gives new possibilities to construct space. This collection awakens the imagination.

RICHNESS OF INSPIRATION FOR MY IMAGINATION

The opportunity to pit myself against the material gives me lots of satisfaction. It makes me feel the true joy of creation. My hands give shape and form... and an item is made which feels like it has a bit of me inside. I think this is important to any designer. The new collection of ceramic tiles Meltemi / Melte by My Way gives such an opportunity to express myself. The variety of materials, lavish design, and the unique tile size 25x75 cm allow to compose the space in any way you want. I like it when it is filled with light and energy of color.
